BRIEF ABSTRACT OF LETTER.

Represents that it is absolutely necessary to have a permanent accountant in addition to the clerk & typist to cope with the increasing work relating to the Exhn and requests sanction to the retention of the temp. Acctt till the end of June 61 and to his being made permanent from 1-7-11.

NOTES AND ORDERS.

1. The previous references relating to the retention of the temporary Accountant till the end of Dec 1960 & to the proposal previously subd by the President for the appointment of a permanent Accountant are subd herewith (Appt 1-10-19 & Dpy-09-8).

The additional cost on account of Establishment, if a permanent accountant on Rs 40-5-60 pm is sanctioned, will be Rs 364 per annum. The President states that the cost to be incurred by retaining the Accountants' services for 6 months more during the current official year will be met by reappropriation.

There seems to be much force in the President's representation that the appointment of an accountant only for 6 months really interferes with the preparation of accounts and as the Exhibition closes only towards the end of October it is not possible within the remaining two months to make up the accounts of the several exhibitions verify the entries in the books and get the final accounts ready. It is obviously inconvenient

to expect the permanent clerk whose duties are not admittedly light to take up the accounts in the middle and finish them by the time the preparations for the next Exhibition have to be made. It will certainly tend to promote a more accurate and a prompt adjustment of charges to have a permanent accountant. The proposal of the President to make the appointment of the accountant permanent may therefore be sanctioned but this can be done without any increase in the total expenditure incurred on account of the establishment at present. It is not quite clear why the pay of the Accountant was originally fixed at Rs 40 to 60 - It was apparently intended to give the President some discretion in the choice of a man so that he may be able to offer him a remuneration

suitable to his qualifications. This reason cannot apply when it is sought to make the appointment permanent. The pay of the Accountant may be fixed at Rs 40 and that of the clerk which is now progressive (30 - 1 - 40) fixed at Rs 30 per month. If this proposal is likely to affect prejudicially the present clerk who must have earned some increments the pay of the clerk who may be so appointed to clerk may be fixed at Rs 40 & that of the Accountant at Rs 30. By adopting this scale the total cost for the establishment will be Rs 1466 which is 10 Rs less than the amount now provided.

Dear Sir,

With reference to my personal conversation regarding the the necessity of keeping on the establishment on the scale proposed by me, I ~~beg to~~ trust that I have explained myself fully beyond what has been set forth in my official letter No. 1205 dated 22nd/ 23rd November 1910 and to request you to kindly see your way to obtain - Government sanction for my proposal in toto as the necessity to continue the same is obvious. It would be discouraging very much to alter or modify the proposal any way since the present Accountant - has been drawing Rs. 50/- with effect from 1st July 1909 and the - clerk who entered service on the 22nd July 1909 on Rs. 30 will be - deprived of the privilege of drawing Rs. 32/- since 1st August 1910. I shall feel much obliged if you kindly obtain Government Order on the subject.

I venture to trouble you with this note as I was afraid you

in Agrl File 1 of 1910 (Collection B for Sept 1910) and finally his retention for 6 months from July to Dec 1910 was sanctioned, the question of his permanent retention being left over for consideration. In his present letter the President of the Exhbn Committee again strongly urges on the attention of Govt the need for a permanent accountant. There is considerable force in the arguments of the President. The Exhbn being an annual event & both the President & the Secy having their own duties to perform in addn to running the Exhbn the need for a permanent establishment to attend to routine correspondence & keep the accounts properly is very great. The present estt consists of a clerk & a typist & need to be strengthened by the addition of an accountant.

Submitted to His Highness.

Paper under Orders.

Mr. G.H. Krumbiegel, President of the Mysore Dasara Exhibition, represents that a permanent Accountant should be attached to his office on Rs.40-5-60.

2. In Government Order No.R.1477-78 dated 3rd September 1910, the continuance of the temporary Accountant was sanctioned for 6 months with effect from 1st July 1910, the question of his permanent retention being left over for consideration. The President again strongly urges on the attention of Government the need for a permanent Accountant.

3. The opinion of the Financial Branch is contained in Agricultural File No.1 of 1910-11.

Page 7 in office notes.

4. The Second Councillor considers that a case has not been made out to make the Accountant's place a permanent one. The First Councillor notes that a permanent Accountant seems to be quite as necessary as a clerk and that the Accountant's pay may be fixed at Rs.40 - 50.

5. I submit the matter for orders. As the Mysore Exhibition is an annual event and having regard to the fact that both the President and the Secretary have their own duties to perform in addition to running the Exhibition, the need for a permanent Accountant is very

great. In this view, I agree with the First Councillor that an Accountant on Rs.40 - 50 may be sanctioned for the President's Office.

SIR,

With reference to Government Order No. R. 1477 - 78 Agri. 1-10-19 dated 3rd September 1910 permitting the continuance of the services of Bindu Rau from the 1st of July 1910 for a -- period of 6 months on Rs 50/- as Accountant, and directing that - every effort should be made to wind up the accounts before the - end of 6 months i. e. 31st December 1910, I have the honor to respectfully place before Government for their further consideration and favour of sanction the question of appointing a whole time - Accountant for the following reasons:-

1. The sale accounts alone takes two months for being finally closed as each exhibitor's claims will have to be reconciled with the Ledger and Receipt Book. At the time of the -

Exhibition, the clerks in charge of Stalls often ~~take several~~ miscarry accounts ~~to others due~~ owing to the falling of slips, similiarity of names, deceptive appearance of figures in Register Numbers &c. - All these have to be set right by a comparison of the Ledger with Entry Forms and Exhibit Register. Subsequently the sale proceeds have to be distributed. Then the analysis of the Award List has to be prepared the despatch of medals and remittance of prize money should be attended to together with the correspondence work connected therewith.

2. Checking of bills and payments thereof have to be - done. Lists of materials supplied from the Forest Department and returned subsequently thereto have to be maintained. There are other minor items of work which are too numerous to be enumerated here.

3. Checking of accounts from the Deputy Commissioners of Districts which are generally received in the latter part of March or early part of April and the incorporation thereof with - the general accounts have to be put in hand. Compilation of - preliminary accounts and preparation of a Statement thereof for the information of the Committee at the time of its sitting for the framing of the Budget has to be done. Thus it will be seen that transaction before the opening and after the close of the -

Exhibition

Exhibition can be said to terminate only at the end of June -- every year. An independent hand to bear the responsibility of the work is absolutely necessary.

4. It is observed that although the tenure of the - accountant's office was only for 5 months in 1907 commencing - from September 1907, the final accounts for that year were transmitted to the Comptroller in June 1908 after having been prepared by the Accountant out of office and further that the files of - accounts relating to the Exhibition of 1908 were transferred to my office only after June 1909 as already mentioned in para 3 of my report on the Exhibition of 1909. It is therefore understood that the permanent clerk Bindu Rau who has been an Accountant since - 1909 July had nothing to do with the accounts maintained in 1907 and 1908. This arrangement strengthens my view in thinking that it is not possible for the permanent clerk to take charge of -- accounts at a stage where it cannot be said to be complete and to continue maintenance thereof in addition to the heavy correspondence work in as much as chances for confusion are very great and thus prevent the responsibility being brought home to either.

5. The general correspondence apart from that relating to accounts is about 7,000 a year. A few months before and after and at the time of the Exhibitions of 1907 and 1908 what half a - dozen

(4

dozen clerks of the Revenue Commissioner's Office did, has now to be done by the office Clerk and Typist in addition to the above - correspondence work while the District clerks and the two temporary clerks being in charge of stalls preparing Hand Book, Exhibit Register &c. The receiving of exhibits and staging &c have to be - done by the Secretary and his assistants if any, mainly helped by the Staff of the Mysore Industrial School. It is not charitable to expect the Clerk and the Typist to attend to the heavy correspondence work. My experience of the work shows that both the - account and correspondence works are so heavy that even the two (Accountant and Clerk) with the Typist could not successfully and satisfactorily get through.

It will thus be seen that in the first two years - when the magnitude of work was very small, there had been a delay of more than 6 months in closing the accounts. As Exhibitions go on, I beg to respectfully submit that the work gets itself multiplied both in quality and quantity and that the Clerk and Typist who will have worked in ~~connection~~ Conjunction with the temporary hands --- equally hard, should be brought to bear ~~upon~~ the responsibility of the entire weight of work is in my humble opinion, ~~is~~ very hard - and that if the Government are not pleased to place at the disposal of the Committee the services of at least ~~of~~ an Accountant to look after the finance and of the clerk and Typist to look -

(5

look after the general correspondence, — it is not possible to push through the work with as much precision and accuracy as the importance of the enterprise deserves.

6. I further beg to state that the cost for appointing a ~~the~~ whole time Accountant would not perceptably alter the financial condition of the Exhibition and the details are set forth below:-

Existing scale.

1 Clerk on Rs 30-2-40	--------	Rs 450.

This increase is comparatively small when the importance of the work is taken into consideration.

Under the circumstance I beg that the present Accountant Bindu Rau who has been put in Rs. 50/- since 1909 Ju may be permitted to be retained till the end of the current official year and to be made a whole time Accountant or a Head Clerk from 1st July 1911. The cost till the end of June 1910 will be met with by reappropriation and the cost since 1911 July will be provided for in the Budget for 1911 - 12.
